To Whom it May Concern:

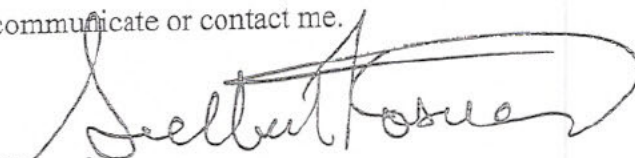

Re: Lonnie and Gregory Spector

I am aware of the confrontation that Lonnie and Gregory recently had that ended with the use of a weapon.

I have know both of these men – father and son, all of their lives both as a family physician and a family friend.

I have to believe with certainty that the use of a weapon would only be used to save their lives, when the confrontation became life threatening. In other words they were endangered and protected themselves and each other.

If I can be of any further help or can answer any questions, please feel free to communicate or contact me.

  
Sincerely yours,

Dr. Gilbert Kasirsky
